

The screenshot shows the Jira Software interface for the 'IBM IOT' project. The left sidebar contains navigation options: 'PLANNING' (Roadmap), 'Backlog' (selected), 'Board', 'DEVELOPMENT' (Code), 'Project pages', 'Add shortcut', and 'Project settings'. The main content area displays the 'Backlog' for the 'IBM IOT' project. At the top, there's a banner asking if the team needs more from Jira. Below this, the 'Backlog' is organized into sprints. 'Sprint 2' (Nov 2 - 6 Nov, 5 issues) is currently active, showing five issues with descriptions like 'As a user, I need to be able to view the functions that I can perform.' and 'As a user, I should be able to add medicine names'. Each issue has a status (e.g., 'DONE') and a priority (e.g., 'KA', 'L', 'M', 'MR'). 'Sprint 3' (Nov 7 - 11 Nov, 3 issues) is also visible, with one issue 'Creating the ibm iot device.' shown. The bottom of the screen shows a Windows taskbar with various application icons and the system clock indicating 7:17 PM on 11/19/2022.
